deleteRequest

localhost:8080/v1/account/delete/3c68a60b-007d-4909-b7a3-70a2498c89ce

The request needs an account id as a path variable

Then it should return a String like:

The account {id} was deleted !!

User

The User folder includes all necessary user requests which are Post, Get, Update, Delete

POST

postRequest

localhost:8080/v1/user

Body

raw (json)

json

```
{
  "name":"version4",
  "surname":"version4surname",
  "type":0,
  "email":"version4@email.com"
}
```

GET

getRequest

localhost:8080/v1/user/8c539b1b-7e1c-4ddd-9cf1-facb72b52d00

localhost:8080/v1/user

Get User By Id

localhost:8080/v1/user/8c539b1b-7e1c-4ddd-9cf1-facb72b52d00

The request needs an user id as a path variable

Get All User

localhost:8080/v1/user

It should return for all the user

PUT

putRequest

localhost:8080/v1/user/update/183da1a5-f0d6-4d7e-99ff-7d452fd04fae

Update User By Id

The request needs an user id as a path variable

Body

raw (json)

json

```
{
  "name":"UpdatedName",
  "surname":"UpdatedSurname",
  "type":"CUSTOMER"
}
```

DELETE

deleteRequest

localhost:8080/v1/user/delete/3c68a60b-007d-4909-b7a3-70a2498c89ce

Delete User By ID

The request needs an user id as a path variable

Then it should return a String like:

The user{id} was deleted !!

Address

The Address folder includes all necessary address requests which are Post, Get, Delete

POST

postRequest

localhost:8080/v1/address

Create New Address

Body

raw (json)

json

```
{
  "communicationId":"2ba86225-6062-44ab-96fa-daa2d62c5e3f",
  "line":"AnkaraAnkaraAnkaraAnkaraAnkara, Ankara",
  "city":"Yenimahalle",
  "province":"Izmir"
}
```

GET

getRequest

localhost:8080/v1/address/d88d3dca-fcac-43d8-a041-ed78757f5ab6

localhost:8080/v1/address

localhost:8080/v1/address/communication/a8052bb6-d236-46a6-940b-02ce6f24dfc3

Get Address By Id

localhost:8080/v1/address/d88d3dca-fcac-43d8-a041-ed78757f5ab6

The request needs an address id as a path variable

Get All Addresses

localhost:8080/v1/address

It should return for all the address

Get All Addresses By Communication Id

localhost:8080/v1/address/communication/a8052bb6-d236-46a6-940b-02ce6f24dfc3

The request needs an communication id as a path variable with "/communication/{id}"

DELETE

deleteRequest

localhost:8080/v1/address/delete/3d9285fb-e2c7-4cde-88ec-d5993e20f4b2

Delete Address By ID

The request needs an address id as a path variable

Then it should return a String like:

The address {id} was deleted !!

Communication

The Communication folder includes all necessary communication requests which are Get, Update

GET

getRequest

localhost:8080/v1/communication/2ba86225-6062-44ab-96fa-daa2d62c5e3f

The request needs a communication id as a path variable

PUT

putRequest

localhost:8080/v1/communication/update/e48f5bee-3aa7-4fc2-a9f5-a10326b37d68

Update Communication By Id

The request needs an communication id as a path variable

Body

raw (json)

json

```
{
  "phone": "050754664664",
  "email": "newemailtest@gmail.com"
}
```
